RESPONSE TO RESTRICTION REQUIREMENT

Dear Sir:

In the Office Action mailed March 31, 2006 (the “Office Action”), the Examiner set forth a Restriction Requirement that identified what the Examiner has characterized as two (2) distinct inventions. In particular, the Examiner suggested in the Office Action that the present application contains claims directed to the following two inventions:

- I. - Claims 1-19 and 25-26, drawn to an optoelectronic device/laser, classified in class 372, subclass 46.01; and
- II. - Claims 20-24, drawn to a method claim reciting process steps for fabricating the device, classified in class 438, subclass 22.

In response to the Restriction Requirement set forth in the Office Action, Applicant hereby elects Invention I, claims 1-19 and 25-26 (drawn to an optoelectronic device/laser, classified in class 372, subclass 46.01) without traverse.

Applicant notes that while the election set forth herein is made without traverse, the mere fact that no traverse is made should not be construed as an assessment or judgment by the Applicant as to the merits, if any, of: the characterization of the claims and inventions advanced by the Examiner in the restriction requirement set forth in the Office Action; or, any other assertions, allegations, statements or characterizations made by the Examiner in that restriction requirement.

An action on the merits of elected claims 1-19 and 25-26, and a Notice of Allowance thereof are respectfully requested.

DATED this 24th day of April, 2006.

Respectfully submitted,

PETER F. MALEN JR.
